<script>
  function redirectNext(){
    var name = document.getElementById('name').value;

    localStorage.setItem('personName',name)

    if(name.trim() !==''){
      window.location.href='email.html';
    }else{
      alert('pssst i really need your name here plz');
    }
  }
</script>
